

**Job Title: Senior Cost Accountant – regular, full-time**

**Department: Accounting**

This position, reporting to the Corporate Controller, will own the cost data that informs operational decision making at Gynesonics. In this role, you will work with teams from across the business to understand and build effective cost models. Your work will vary from quick-turn ad hoc analysis, journal entry and recon preparation, to detailed cost models – all in the pursuit of helping grow the understanding and measurement of cost at Gynesonics.

Candidates must be local to the Bay Area or willing to relocate. This is a hybrid role and must be onsite one day a week in our Redwood City headquarters.

**Primary Responsibilities:**

- Perform standard Month-end close Procedures (post JE's, reconcile accounts, etc.)
- Cost new parts, and assist daily business to ensure roadblocks are minimized
- Develop/enhance efficient costing methodologies across different products
- Analyze variances against those costs and help drive the organization to find efficiencies in processes
- Assist with periodic/yearly Inventory Counts
- Provide all direction for cost accounting related activities
- Interact with financial management, general management and external auditors

**Knowledge, Skills, and Experience (check all that apply):**

- Bachelors in accounting, finance, or similar field required
- CPA, CMA, or MBA preferred
- 3+ years of experience in Cost Accounting, 5+ years of professional experience
- Experience working with MS Excel and office skills including Windows, Outlook and MS Office
- Strong understanding of cost accounting
- Ability to collaborate within the Accounting organization and with other teams (Supply Chain, Operations, Manufacturing, etc.)
- Willingness to build cost functionality from ground up
- Strong understanding of GAAP
